What we collect

- Listing data you submit: display name, link, handle, logo file, tier, and any message.
- Payment data: the payment company collects card data. We receive a confirmation, amount, last four if provided, and a transaction id. We do not store full card numbers.
- Referral data: a referral code and the Listing it is attached to.
- Technical data: IP address, browser, and basic logs, used to run the Site, rate-limit, and stop fraud.
- Email: if you give one at checkout, we use it for the receipt and for notices about that Listing.

We do not knowingly collect data from anyone under 18. Do not submit a child's name or photo.

Why we use it

To post the Listing you bought, take payment, prevent fraud, keep the board honest, meet tax and accounting duties, and answer you. That is the contract and our legitimate business need. We do not sell your personal information. We do not share it for cross-context behavioral advertising.

Who sees it

The name, link, and logo you submit are public. That is the product. Payment details are not public.

We share data with the payment company that processes the charge, the host that serves the Site, and the database that stores the board. We share data if a law, subpoena, or card-network rule requires it, or to enforce the Terms.

How long

We keep a Listing for its term (through December 31, 2028, or December 31, 2038 if a car is bought) and keep transaction records for the period Arkansas and federal tax law require, generally at least as long as the IRS and the Arkansas Department of Finance and Administration can audit the year.

Your requests

Email us to correct a display name, remove a Listing, or ask what we hold on that email. Removing a compliant Listing early is not a refund unless the Terms say it is. California residents can request access or deletion of personal information under the CCPA/CPRA, and we will not discriminate for the request. The public Listing is a completed advertising placement; deletion of the public name may be limited where we must keep a transaction record.

Security

No website is perfect. We use the payment company's hosted checkout so card numbers do not land on our server, and we keep the board on access-controlled storage.

Arkansas and federal

Commercial email from us will include our legal name, a physical address, and a way to stop further email, consistent with CAN-SPAM, 15 U.S.C. § 7701 et seq., and Ark. Code Ann. § 4-88-603.

This policy is governed by Arkansas law. Disputes follow the forum clause in the Terms of Sale: Circuit Court of White County, Arkansas.
